PERSONAL PROFILE

I am a competitive amateur golfer with extensive experience at county, national and World Amateur Golf Ranking (WAGR) level, hoping to build a career as a PGA Professional and high-performance golf coach, whilst continuing to play competitive golf.

I have discovered a real passion for helping golfers improve through technical coaching, equipment optimisation and performance development. I have experience in custom club fitting, workshop repairs and supporting competitive golfers with performance coaching. Alongside my golfing experience, I have developed strong leadership, communication and organisational skills through professional roles managing teams and delivering under pressure.

My goal is to combine a career as a competitive professional golfer with becoming an outstanding performance-focused PGA coach, helping golfers of all abilities maximise their potential.

GOLFING EXPERIENCE

Coaching & Player Development

- Informally coached competitive and elite golfers, helping players improve technical consistency, course management and performance.
- Developed personalised practice plans focused on scoring improvement and long-term development.
- Caddied for players in major events such as Open Qualifying and Junior European Open, furthering the coaching I was giving them on course management and performance.

Club Fitting & Equipment

- Conducted custom club fittings using TrackMan launch monitor technology.
- Confident using GCQuad and Foresight launch monitor systems.
- Experienced carrying out club repairs including regripping, club building and general workshop repairs.
- Strong understanding of ball flight, equipment optimisation and club performance.
